

Project Development Phase
Model Performance Test

Date	29 September 2026
Team ID	SWTID-2026-9879
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders With Flow Designer
Maximum Marks	

Model Performance Testing:

S.No.	Parameter	Values	Screenshot
1.	AI Model Summary	Not applicable. No AI model is used in this project. The routing decision is a rule-based If condition in Flow Designer (order cost compared with the approved budget limit), as stated in the Technology Stack (Machine Learning Model: Not applicable).	-
2.	Accuracy	Training / Validation Accuracy: Not applicable (no model is trained). Equivalent measure used: routing correctness = orders routed to the correct path (auto-approve or Department Head) / orders tested.	-
3.	Fine Tuning Result (if done)	Not applicable. The budget limit is a configurable system property that can be changed without rebuilding the flow.	-
