

Project Development Phase Model Performance Test

Date	29 September 2026
Team ID	SWTID-2026-9879
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders With Flow Designer
Maximum Marks	

Model Performance Testing:

S.No.	Parameter	Values	Screenshot
1.	Model Summary	ServiceNow automation setup for laptop order management using a Service Catalog item and a Flow Designer flow. The flow starts from the Service Catalog trigger and runs the Create Catalog Task action to raise a catalog task for the Hardware group. Note : When the order is submitted, the flow creates the request, requested item and catalog task. If the flow fails, the error is shown in the Flow Designer execution history.	 Flow action: Create Catalog Task (Assignment group: Hardware)  Standard Laptop catalog item with flow 'Standard laptop task'  Flow activated successfully
2.	Accuracy	Training Accuracy - Not applicable Validation Accuracy - Not applicable No machine learning model is used in this project, so there is no training or validation accuracy. Functional result of the tested order: 1 of 1 order produced the expected REQ0010001, RITM0010001 and SCTASK0010001, with the task created about 43 seconds after approval.	 Order placed: Request Number REQ0010001  Catalog Task SCTASK0010001 created for RITM0010001

3.	Confidence Score (Only Yolo Projects)	Class Detected - Not applicable Confidence Score - Not applicable This parameter is only for YOLO (object detection) projects. No object detection is used in this project.	Not applicable
